- Review the family interview questions below.
- Arrange a time to interview the family. Your interview is likely to last approximately 30 minutes.
- Prior to meeting with the family, provide a 1 page overview of professional boundaries and confidentiality requirements that are important to keep in mind when working families. Also, provide a brief overview of communication and collaboration skills that would support connection.

During the Interview:

- Be sure to let the family know that you are completing this interview as a course assignment, and that the purpose of the assignment is to support your mastery of content.
- Let the questions below guide your interview but allow parents to share anything about their family and culture that they feel is pertinent, even if it is not specifically mentioned in the interview questions.

Part 2: Post Interview Reflection:

Using the interview questions as a guide, describe the family and summarize your interview.

- What privileges, rights, and obstacles does this family encounter? How might the context of this family influence SAY development and choices?
- How can the knowledge gained about the family's perspectives and backgrounds contribute to your ability to support the child?

Post Interview Reflection
